

Atari Lynx

The Atari Lynx was a fourth-generation handheld game console released by Atari on September 1, 1989 and it retailed for \$179.99. It has a WDC 65SC02 CPU. Notably, it was the world's first handheld system that used a color LCD screen, as well as having fairly advanced graphics for the time.

shortname	lynx
emulator/core(s)	libretro/mednafen_lynx
rom format(s)	.lnx .zip .7z

Emulators

libretro/mednafen_lynx

Beetle Lynx is an Atari Lynx video game system emulator that can be used as a libretro core. Specifically it's a port of Mednafen Lynx which is a fork of Handy.

ROMs

Place your Atari Lynx ROMs in /userdata/roms/lynx/.

Controls

The default button mapping to the Game Boy is as following:
